

Biological Science Technician:

Hike and deploy acoustic bat monitoring equipment, data collection and entry. Opportunities to help field ecology crews on vegetation monitoring, coastal intertidal or herpetology studies. Experience with monitoring protocols preferred. Location: Thousand Oaks, CA.

GIS Technician:

Help park staff access GIS software and data. Produce maps with basic analysis, create layers and help maintain on-line maps. Organize datasets while sharing resources with park partners and researchers. Advanced GIS experience preferred, with interest in natural and cultural resources. Location: Thousand Oaks, CA.

Spanish Communications Specialist:

Work with our Public Affairs Office to write press releases, social media posts, and talking points en español. Help with park photography and relevant park stories. Spanish fluency required. Knowledge in journalism, photography, and interest in outdoors preferred.

Work Site and Conditions:

For field positions, work is outdoors, physically strenuous in hot conditions. Temperatures range from 80° - 105° F during summer. Potential exposure to poison oak, ticks, and rattlesnakes.

Required Skills, Experience, and Qualifications for Field Positions:

- Currently Enrolled in College.
- Must be able to hike 1-5 miles on and off-trail.
- Safety mindset is a must!
- Must be 18 years or older.
- Driver License required.
- Ability to lift between 40 to 50 lbs.
- Ability to maintain records and write reports.
- Professionalism. You will follow all Santa Monica Mountains Fund and partnering National Park Service policies, maintain professional boundaries with work colleagues and program participants.
- Substance Free. You will refrain from using any tobacco products, vaporizers, electronic cigarettes, alcohol, or drugs.
- CA DMV Driver Record Request.
- Live Scan or other background check may be required depending on position.
- Must be a US citizen or Permanent Resident.

Program Background:

The SAMO Youth Program provides paid work experience and mentoring for diverse college students. The goals of the program are to create a developmental work experience for underrepresented students that:
1) Promotes an ethic for conservation and stewardship.
2) Introduces students towards careers in public service.

Partnership:

The Santa Monica Mountains Fund works to protect and encourage appreciation and understanding of the Santa Monica Mountains National Recreation Area. The Fund supports the National Park Service efforts in education, science, research, improving facilities, community engagement, stewardship and philanthropy.

How to Apply:

Email antonio_solorio@nps.gov with **"SY College Intern App 2020"** in the subject line. Be sure to specify which Intern Position you are applying for in cover letter and resume objective.
