

## Law Enforcement Disability Awareness Train the Trainer – VIRTUAL Missouri Law Enforcement Personnel ONLY

The First Responder Disability Awareness Training project at Niagara University is pleased to announce the Train the Trainer program for Law Enforcement personnel in the **State of Missouri**. If you are a Law enforcement trainer who has an interest in educating your peers on how to properly respond to individuals with disabilities,

Developed with input from law enforcement from Virginia, South Dakota, Missouri and New York, this training both sensitizes and educates law enforcement on how to effectively identify, address, and respond to various disabilities they will encounter in their line of duty.

Content includes, but is not limited to, disabilities defined specific to law enforcement, community resources, the Americans with Disabilities Act, Recognize-Identify-Approach-Interact-Response (RIAIR) model, victimization/abuse, etiquette/interaction skills, CIT interface, service animals, and person/identity first language.

This program is developed strictly for law enforcement personnel with the **intent to TRAIN other law enforcement officers**. This is NOT a training session for those who do not intend to train their peers. NU FR-DAT will track all attendees in this session relative to the department or agency they belong to and record when they train law enforcement personnel. This is a **FREE** training. You must be able to **attend all five sessions**. This course has been determined to qualify for POST continuing training credit. Attendees must connect via the internet on a computer, no call-in or phone attendance.

**DATE: June 1, 2, 3, 8, 9 2021**

**WHEN: 9am-1pm CST all days**

Zoom training link will be provided the day before the training.
